## Registration Details

Thank you for registering your application! To avoid any errors during implementation, we recommend that you review the following app registration details before continuing.

### OAuth2

When making an OAuth2 access token request, your `client_id` and `client_secret` are required in the authorization header. You must use one of the following redirect URLs when authenticating a customer using the Authorization Code grant type.

Your `client_secret` can only be accessed by request once you click Continue. Select the print icon to print your app details and secret to pdf.
